

As you walk eastward, along the outside of the wall, look for the **commemorative stone** (4) recognizing Martin Middaugh Jr. and his wife Elizabeth Middaugh Gaynor as Alton's Founding Family.

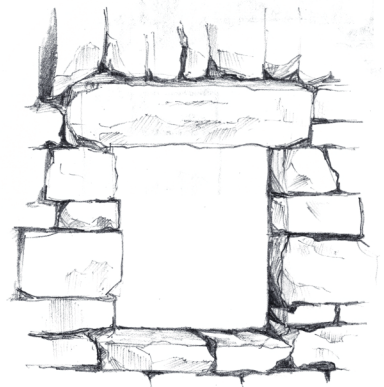

Illustrated by Kayla Jackson www.kaylajackson.ca

Follow the stone wall around the corner, into the Square and down the other side. Can you see the 1894 **date stone** for the Barber & Bro Carriage Works (5) and **stone horseshoe** (6), embedded in the wall on the west side of the Square?

As you continue moving into the Square, beyond the wooden platform, you will see four **raised bed gardens** (7). Three are planted with vegetables and herbs and the one in the centre is our first Butterflyway (habitat) garden.

On the opposite side of the Square, along the east dry stone wall, are three more **raised beds** (9) that include another Butterflyway Garden, a Junior Gardening bed and a Heart Garden. All of these gardens are managed by local residents, school children and volunteers.

Fill in the stones with what you observe!
